The Perfect Fit - Happy Nappy™ & Happy Nappy DUO™

The best way to ensure that the Splash About Happy Nappy™ and Happy Nappy DUO™ work reliably to contain fecal leaks, is to make sure that the baby is wearing the correct size. Our handy guide explains it all!

Step One:

Measure around the waist.
We recommend measuring at tummy button height to get an accurate measurement.

Step Two:

Measure at the top of the thighs. We recommend measuring around the very top part of the thigh where it is thickest.

Step Three:

Select the correct size happy nappy using the size guide below, paying particular attention to the leg measurements.

Fitting Tip:

The nappy should mould to the bottom and not be baggy. Run a finger along the inside of the ribs; the pressure should feel snug against the body but not tight or uncomfortable.

| Size | Waist | Thigh |
|--------------------|------------|------------|
| (Small) 0 – 3 m | 34 – 41 cm | 17 – 22 cm |
| (Medium) 3 – 6 m | 37 – 44 cm | 19 – 24 cm |
| (Large) 6 – 12 m | 40 – 47 cm | 20 – 26 cm |
| (X Large) 1 – 2 y | 42 – 50 cm | 22 – 31 cm |
| (XX Large) 2 – 3 y | 44 – 52 cm | 26 – 33 cm |
| 3 – 4 y | 48 – 54 cm | 27 – 35 cm |
| 4 – 5 y | 56 – 62 cm | 29 – 37 cm |

How to measure & fit

Right fit: Waist band sits snugly against the waist and thigh ribs are secure against the leg with no gaping.

Wrong fit: No under nappy should be seen; it breaks the seal and allows leaks to escape.

If in doubt, a Size Checker feature can be found on www.splashabout.com
